Intended Use & safety Information

Please read carefully...

This product is intended for use in domestic or commercial environments such as homes, shops, hotels etc.

This product is not intended for use in a corrosive or explosive atmosphere (dust, vapor or gas)

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Children ages from 3 years and less than 8 years shall only switch on/off the appliance provided it is placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.

Children of less than 3 years should be kept away unless continuously supervised.

CAUTION: The surface of this product can become very hot and cause burns, please pay attention when children or vulnerable people are around the heater.

This product should be installed by a qualified installer in accordance with all applicable local regulations and connected to an electrical output in good condition.

Extension leads or plug adapters should not be used in order to supply power to this product.

WARNING: In order to avoid overheating, do not cover the heater.

The supply cord cannot be replaced. If the cord is damaged the appliance should be removed and disposed of.

This product can only be installed outside zones 1 and 2 when installing in a bathroom.

WARNING: The product is not equipped with a device to control the temperature. Do not use this heater in small rooms when they are occupied by persons not capable of leaving the room on their own, only use the device if those individuals are under constant supervision. To ensure the safety of very small children, install the product so the lowest tube is at least 600 mm above the floor.

General Information

Do not throw away packaging until you have located and confirmed that you have all included parts and the product is in good condition.

Check the device for damage before installation and on a regular basis.

If any damaged is found on the appliance or power cord it should not be used, if any damage is caused once installed or during installation the device should be switched off and disconnected immediately.

Keep the power cord away from any hot surfaces of the radiator.

This radiator has no serviceable parts, never dismantle the radiator as this will invalidate the warranty and could lead to injury.

 Please read the full manual before installing.

Installation

Tools required for installing:

10mm

Installation Safety Information

Always disconnect the power before installing.

If in any doubt contact a qualified or fully competent person.

The product should only be connected to a power outlet in good condition.

Local electrical regulations must be adhered to when installing.

Please pay attention to the safety zones if installing in a bathroom.

This product must not be located immediately below a socket outlet.

Installation

Your Radiator is supplied with x4 fixing brackets. They are specifically designed as 2 for the top of the unit and 2 with locking screws for the bottom of the radiator, as shown below.

2x Top Brackets

8x Wall Plugs

8x Plastic bracket covers

2x Bottom Brackets

8x Fixing Screws

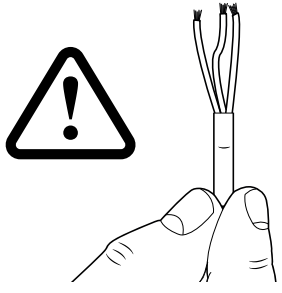

x8 Screw Covers

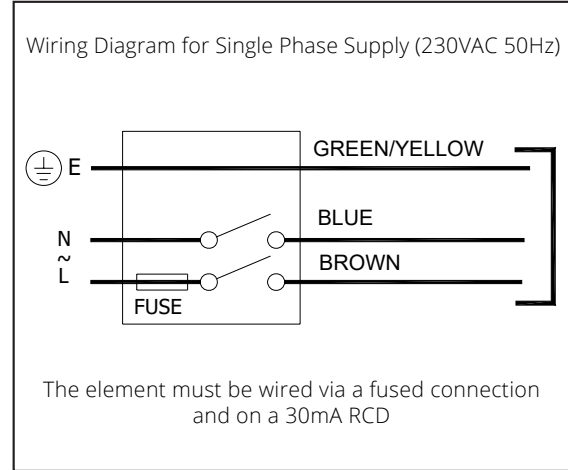

x1 Allen Key

Electrical Connection

Once the radiator is fitted, the radiator can then be wired into the mains, this must be done by a qualified or competent person in accordance with local electrical wiring regulations.
