## ***Installation:***

If the colour of the strip lights do not match the coloured buttons on the remote then the controller may need to be re-calibrated, to do this please follow the below simple steps:

1. Turn off the led strip light with the "off" button on the remote.
2. Short press the "smooth" button, you will see the strip light flash.
3. Turn on the led strip light with the "On" button on the remote and try the red/green/blue buttons again.
4. If the colours are still not correct repeat steps 1-3.
5. It may take several attempts to calibrate the controller
6. Once the correct colours are showing the controller can be used as normal.

# Recycling & Disposal

---

**The Waste Electrical and Electronic Equipment Directive (WEEE Directive)** is the **European Community directive** 2012/19/EU on **Waste Electrical and Electronic Equipment (WEEE)** which, together with the **RoHS Directive** 2002/95/EC, became European Law in February 2003

The **WEEE** directive aims to reduce the amount of electrical equipment being produced and to encourage everyone to reuse, recycle and recover it.

In support of these guidelines and for environmental safety, do not dispose of any electrical equipment including those marked with the below symbols

When replacing old electrical devices with new ones the retailer is legally obligated to take back your old items for disposal free of charge. You can also recycle your old electrical devices free of charge at your local recycling centre. Please contact your local council for more information.
